## Career Summary

I am a dedicated and meticulous creative thinker with over 17 years of experience at a top London design agency. I have a degree in Product Design with Animation, through which I won the national RSA Design Directions Award for sustainable packaging, awarding me a design internship. From intern to full-time designer, I swiftly advanced to become Design Director, leading a team of designers to develop strategic and beautiful branding that struck a chord with consumer's emotions.

My communication, organisational and leadership skills have seen me transition to a client services-focused position as Account Director. I have changed the habits of a nation with the award-winning *Happy Egg* Co., from 75% caged purchases to 75% free range. With the invention of *Nuii* and forging strong relationships and friendships with influential individuals throughout the Froneri business, I brought many more brands to the agency from Europe, Australia and the US.

## Experience

### Procurement Assistant

Bells of Lazonby Ltd. | 2023 - 2024

I was responsible for reviewing the daily production plan for both bakeries, standard and Gluten-Free, reacting to unforeseen issues or changes, and working collaboratively with production and our suppliers to establish the optimal solution.

- Ordered packaging at the best price per 1,000 and according to lead times.
- I arranged for consignment stock to be delivered daily/weekly to two bakeries.
- I standardised supplier call-off documents for a consistent approach to reduce the possibility of human error.
- I introduced a robust tracking document for developing new packaging with suppliers and bringing the responsibility under procurement rather than each Account Manager.
- I provided regular guidance from my past career experience and advised the marketing team on their ongoing redesign of the We Love Cake brand

### Account Director

Springetts Brand Design Consultants | 2019 - 2023

I offered a unique client service, daily account management combined with creative insight and understanding of the creative process from brief to launch.

- Advised clients on daily brand management and new growth opportunities within their market.
- Negotiated a new cost matrix with clients, implementing a 10% fee increase.
- Devised alternative creative processes to meet client requirements within tight budgets.
- Facilitated co-creative sessions with clients, including *AG Barr* from which I produced the new brand strategy and internal creative brief.
- I assisted Creative Directors with project planning, scheduling and quotations.
- Introduced a studio scheduling system and managed creative time efficiently throughout the agency and according to project value.
- Accounts worth circa £1m.

## Hobbies & Interest

I'm a keen **runner**, from weekday 5k to half marathons along the Thames, just because I could. I find nothing is better for clearing the mind and positive thinking.

As my relocation to Cumbria may suggest, I am an avid **hiker** and love being up in the fells, taking in the fresh air and beautiful great outdoors. While here my other hobby, **photography**, can also shine with spectacular flora and fauna in every direction.

If not atop the world, I'll be in the valley and on the water, either speeding by in a **kayak** or cruising on a **stand-up paddleboard**.

When I'm not adventuring, I can be found **doodling, sketching** or **designing**.

I'm a huge **Formula 1** fan following every race. I've been lucky enough to drive a single-seater around Silverstone and combined this passion with my design career when pitching to rebrand the Racing Point F1 team (now Aston Martin).
